Prof. Dr. Tobias Warnecke

Head of the Department of Neurology and Neurorehabilitation,
Klinikum Osnabrück - Academic Teaching Hospital of the University
of Münster

Osnabrück, Niedersachsen, Deutschland

Zusammenfassung

Professor of Neurology, Head of the Department of Neurology and Neurorehabilitation at the Klinikum Osnabrück – Academic Teaching Hospital of the Westfälische Wilhelms-University of Münster, Osnabrück, Germany

Professor Tobias Warnecke is Professor of Neurology at the Westfälische Wilhelms-University of Münster and Head of the Department of Neurology and Neurorehabilitation at the Klinikum Osnabrück. He is also initiator and spokesman of the Parkinson's Network Münsterland + (PNM+) as well as the Parkinson's Network Osnabrück + (PNO+).

Professor Tobias Warnecke acts in several Guideline committees dealing with problems related to Parkinson's disease and dysphagia (Parkinson's disease and atypical Parkinsonism, feeding and nutrition in clinical neurology, diagnosis and therapy of stroke-related dysphagia, Flexible Endoscopic Evaluation of Swallowing (FEES) in neurology) of the German Society of Neurology, the German Stroke Society and the German Society for Parkinson's Disease and Movement disorders. He is member of several German and international Societies as well, and is author of several peer-reviewed articles, reviews, and books. Since several years, he also acts as a FEES instructor within the German FEES curriculum as well as the European Society for Swallowing Disorders (ESSD) FEES accreditation program.
